Summary / Description

KNOT DUALITY has been well traveled and loved by it's current owners. Cruised from Florida and summers spent sailing our local waters in Nova Scotia. Stored on land winters.

This knowledgeable owner has upgraded the boat with a 2022 Mercury 25HP electric start outboard on an electric raising bracket to replace the sometimes troublesome Westerbeke diesel engine and sail leg these models came with.

The boat does come with full electronics, interior diesel heat, diesel generator, solar panels, cockpit enclosure, furling head sail and stack pack for the main, full galley, enclosed head with shower, 3 double berths, large salon and galley. Amazing amount of boat in an easily managed 34 foot package.

The Gemini 105 is at the pinnacle of cruising catamaran design. Her sailing performance is legendary yet still manages to surprise unsuspecting newcomers.

The accommodations are spacious, light, and airy so that the term, "down below", just doesn't apply.

The deck layout and rig offers a stable, safe, and well reasoned platform for whatever comes your way.

And the ingenuity of lifting centerboards and kick-up rudders will have you sailing through less than 2 feet of water.

All this and more in a cruising catamaran that can dock in a standard slip or be trucked across the country.

A fully equipped Gemini 105 MC catamaran. Cabin design is very well suited for those that don't want to be down below and not able to see out. The moderate displacement and centerboards give shallow draft and maximize performance on all points of sail.
