Summary / Description

This 2010 Admiral 38 Executive 3-cabin, 2 head catamaran has only had two owners, has never been chartered, is extremely well maintained and is in great condition. The living space and the entertaining space is exceptional and feels much bigger than a 38ft boat. This boat crossed from South Africa to the US and has been cruising down through the Bahamas and Caribbean ever since. These are very capable ocean crossing boats. With 3 ft of draft if you're cruising in shallow areas you can snuggle up closer to the beach than most boats.

This boat is fitted with an engine-driven ECOTECH water maker which are really well-built quality units and solid performers. Up on the top of the cockpit roof there's 3 x 335 watt, 36 volt Solar Panels giving you 1005 watts in total. The stack pack is in great condition and the main sail is fitted with the Harken Battcar system, a fantastic upgrade that you almost never find on this size of boat due to the purchase cost, makes hoisting, dropping or reefing the sail very easy.

This boat has window and hatch screens and to add to the shade this boat boasts a custom sun cover which not only covers up most of the salon and the forward cabins but also channels the air through the boat so when the hatches are open it really sends a super amount of breeze through the boat keeping everything nice and cool.

Ideal for someone that's looking for their first catamaran or maybe upgrading from a monohull and looking to get into the Caribbean cruising lifestyle. This boat is easy to handle and offers excellent living and entertaining space and it really ticks a lot of boxes for a lot of people.
