Summary / Description

2010 Fountaine Pajot Lipari 41 | See Leggs

?

See Leggs is a 2010 Fountaine Pajot Lipari 41, a world-class cruising multihull designed by Joubert / Nivelt and built by Fountaine Pajot. Renowned for excellent offshore performance, the Lipari 41 combines elegant lines with a design that maximises space, storage and comfort. Balanced hull volumes ensure smooth, stable sailing at every speed and in all conditions.

See Leggs features a spacious and well-equipped deck layout that offers easy handling and comfortable sailing. The contemporary saloon includes a large dining table seating eight guests, a forward-facing chart table equipped with electronics and instruments for easy access, and a versatile galley flowing into the cockpit alfresco area, providing an additional dining option. The cockpit is designed with all-weather protection and ample seating, creating an open-plan entertaining space accessed through a large sliding door from the saloon.

Accommodation on See Leggs includes four generous cabins offering relaxing retreats with slatted beds, plenty of storage and large windows providing excellent sea views. The aft cabins have additional opening portholes for natural light and ventilation. Each hull incorporates a full bathroom with a shower and electric toilet connected to 50-litre holding tanks, making this layout ideal for blue water cruising and liveaboard comfort.

Powered by two economical Volvo Penta 30 hp diesel engines with sail drives, See Leggs offers easy manoeuvrability and ample power when required. The yacht has a fuel capacity of 315 litres and a water capacity of 530 litres, with the last antifouling completed on 26 March 2025 and the latest engine service in 2025. The maximum speed is 8 knots with a cruising speed of 7 knots.

The galley is located up and fully equipped with refrigeration, freezer, stove, oven, stainless sink, gas alarm and microwave. Additional cooling is provided by three Engel fridge/freezer units (60L, 45L and 90L). A 2023 Easy Topper tender with a Mercury 15 hp electric-start outboard completes the package.

Perfect for exploring exotic islands, embracing new cultures and creating lasting memories, See Leggs offers an outstanding opportunity to cruise or live aboard in comfort and style.
