Summary / Description

Giramondo is an exceptional example of the highly regarded Privilege 515, offered in the sought-after owner's version and meticulously maintained throughout. Built by the renowned Privilege shipyard in France, this model is celebrated for its robust construction, luxurious finishes, and proven offshore performance.

Launched in 2010, Giramondo was hull #2 of the series and showcases the superior craftsmanship and design detail that defines Privilege catamarans. The interior features rich walnut joinery, teak flooring, and a layout that offers both elegance and functionality for long-term cruising.

At the heart of this vessel is the unique full-beam owner's suite, a rare feature in catamarans of this size, offering a super king-sized bed, private study, full-height shower, electric fresh-water flush toilet, and ample storage. Two generous aft cabins, each with their own ensuites and air conditioning, provide luxurious comfort for guests.

The recently refitted galley is equipped with premium Bosch appliances and opens onto a bright and spacious saloon, creating a seamless living and entertaining space. The saloon includes a six-person leather lounge, walnut dining table, and ample refrigeration, complemented by a full-size washing machine and clever storage throughout.

Designed for serious bluewater cruising, Giramondo has completed three Atlantic crossings and comes fully equipped with offshore safety gear, including a Jordan series drogue, storm jib, and upgraded rigging (2022). The sail wardrobe includes a new mainsail (2023), foresail, code zero, and a lightweight headsail optimised for short-handed sailing.

Modern systems include 1.6kW of solar, lithium batteries (1380Ah), a 3kW inverter, 11kW genset, 200L/hr watermaker, and comprehensive Raymarine navigation. A 2022 helm upgrade includes dual seating, new instruments, and a protective canopy with high-impact plexiglass.

With recent upgrades to exterior teak, deck cushions, cockpit shading, and dining furniture, Giramondo presents as a turn-key, luxury cruising platform ideal for extended voyages or liveaboard lifestyle.
