Generator 1 KW hrs			Generator 2 KW hrs		

## Summary / Description

### 2013 Lagoon 450F - *Wiki*

*Wiki* is a beautifully maintained Lagoon 450 F Owner's Version, perfect for those seeking a spacious and capable cruising catamaran. Professionally upgraded with bulkhead reinforcement by Norsand boat yard, she is built for both comfort and offshore reliability.

*Wiki* features the popular full flybridge layout, providing excellent visibility and a commanding view.

Her well-designed three-cabin layout includes queen-sized beds in each cabin, complemented by a spacious saloon and three electric heads with showers, ensuring a comfortable experience for all onboard.

Powered by 54 hp Yanmar 4G H5E engines, she cruises comfortably at 9 knots under motor, with efficient folding three-bladed props and sail drives for optimal performance. Navigation and connectivity are enhanced by a Raymarine electronics package and Starlink communication system.

Designed for self-sufficient long-distance cruising, *Wiki* is equipped with 1060Ah of new house batteries (2023), 2080W of solar panels, and a Watt & Sea hydro generator. A watermaker further supports off-grid capabilities. New standing rigging, well-maintained sails, and a parasail for downwind sailing make her a true bluewater cruiser.

A Zodiac Cadet 310 tender, powered by a new 2023 Yamaha 15 hp engine, ensures easy shore access, with an additional new Yamaha 2 hp outboard (2023) included.

Tax unpaid, *Wiki* is ready for her next adventure. Contact The Yacht Sales Co. today to arrange a viewing or learn more!

*VIYB Ltd is pleased to assist you in the purchase of this vessel. This boat is centrally listed by THE YACHT SALES CO.. It is offered as a convenience by this broker/dealer to its clients and is not intended to convey direct representation of a particular vessel*
