Summary / Description

Lagoon 52 – Elegance, Performance, and Exceptional Tax Advantages

The Lagoon 52 is a benchmark in modern cruising catamaran design, developed by the world's leading multihull builder. With its diamond-shaped vertical bows, beveled hulls, levitated deckhouse, and tall rig, this catamaran breaks away from convention—offering not only striking aesthetics but exceptional functionality.

This particular Lagoon 52 is **actively chartering in the BVI and USVI**, making it fully eligible for the 100% bonus depreciation tax deduction under current U.S. tax law. For qualified U.S. buyers, this offers a significant financial advantage, especially when paired with a professionally managed charter program.

Designed through the collaboration of naval architects Van Peteghem-Lauriot Prévost (VPLP), Nauta Design, and Lagoon's in-house team, the Lagoon 52 incorporates elegant, radical choices that elevate both form and function. The result is a vessel that delivers on all fronts: comfort, safety, user-friendliness, and performance.

Lagoon 52 Highlights

- A contemporary, luxurious interior featuring noble materials and soft tones
- Open-plan salon with continuous horizontal lines for a spacious feel
- Seamless flow between interior and exterior spaces
- A strong, slender exterior design that reflects both strength and character
- Proven performance under sail and engineered for bluewater cruising

Whether you're looking for a **turnkey charter yacht with strong revenue potential** or prefer to convert the vessel to a private liveaboard or cruising platform, this Lagoon 52 offers unmatched flexibility, beauty, and financial upside.
