Summary / Description

This one-owner St. Francis 50 mk2 was custom built for her knowledgeable owners to provide speed, comfort and safety for extended voyaging. *SEA JAY* accomplished just that, having recently completed a 4-year circumnavigation of the globe mostly doublehanded. Now she is ready for her next owner and her next adventure.

St. Francis has a reputation in the global cruising community that is both well-earned and well-deserved. She holds a Category A CE rating, allowing owners to cross oceans with confidence. On *SEA JAY*, the owners specified a long list of upgrades and custom features which are itemized in detail below. A quick summary includes the following highlights:

- Custom Mastervolt-designed electrical system fully integrating her 24-volt Lithium batteries
- Shore power inlets and transformers to plug into any dock worldwide and run 60 or 50 hz equipment
- Custom luxury interior with upgraded headliners and veneers
- Two Spectra water makers, each serving separate 180 g water tanks for redundancy
- Custom running rigging layout with reversing electric winches to allow all operations from cockpit
- Reckmann electric furling headsail
- Optimized sail package including code sails & spinnakers with furlers/snuffers
- Extensive offshore safety gear including life raft, spare rudder and drogue
- Highfield 390 RIB with Yamaha 40 hp motor

The owners of *SEA JAY* have returned to life ashore and removed their personal effects from the vessel. She has just undergone a complete detailing and awaits your inspection.

VIYB Ltd is pleased to assist you in the purchase of this vessel. This boat is centrally listed by Flagship Yacht Sales. It is offered as a convenience by this broker/dealer to its clients and is not intended to convey direct representation of a particular vessel
