Summary / Description

2022 Fountaine Pajot Tanna 47 Maestro | Resilience

Launched in June 2022 in La Rochelle, France, *Resilience* is an exceptional example of the highly sought-after Fountaine Pajot Tanna 47 Maestro (Owner's Version).

Winner of the 2023 *Cruising World* 'Catamaran of the Year' Award, the Tanna 47 impresses with her modern design, spacious saloon, expansive cockpit, and innovative flybridge layout. She is one of the most desirable performance cruising catamarans in her class — superb to sail and perfect for entertaining in the marina.

As the second Fountaine Pajot owned by her sellers, *Resilience* reflects the benefit of prior experience. Drawing on lessons learned and a passion for offshore cruising, the owners have overseen an extensive and thoughtful customisation process, taking her far beyond standard specification and setting her apart from any other Tanna 47 we know of. She has been fully outfitted for bluewater sailing, easily handled by a couple, and enjoyed in luxurious comfort.

From her upgraded sail wardrobe and furling mainsail to the addition of a Parasailor and robust running rigging, *Resilience* is a true delight to helm. The helm station has been custom-configured for maximum control and simplicity, allowing most functions to be operated from a single, protected position. Additional custom stainless steel handrails have been strategically placed to enhance safety in all conditions.

Her owners also prioritised energy independence, opting for a fully electric setup and eliminating reliance on LPG. A powerful solar array, paired with high-capacity lithium battery storage, delivers quiet, efficient, and gas-free cruising in remote locations without compromise.

A one-owner vessel, never chartered, and meticulously maintained since new, *Resilience* is offered in true turnkey condition, ready to embark on her next adventure.

VIYB Ltd is pleased to assist you in the purchase of this vessel. This boat is centrally listed by THE YACHT SALES CO.. It is offered as a convenience by this broker/dealer to its clients and is not intended to convey direct representation of a particular vessel
