## Summary / Description

### **Sunpower-ALVA Solar-e 60 – The Future of Luxury, Powered by the Sun**

Step aboard the **Sunpower-ALVA 60**, a cutting-edge solar electric catamaran that redefines what it means to cruise in comfort, style, and total peace of mind. Purpose-built for discerning owners who want to explore the world without leaving a footprint, the Sunpower 60 is more than just a yacht — it's a floating sanctuary powered entirely by the sun.

Every line and surface of this 60-foot vessel has been designed to deliver maximum efficiency, performance, and elegance. With its wide beam and sleek, contemporary profile, the Sunpower-ALVA 60 offers an abundance of space — indoors and out — all powered silently by integrated solar panels and supported by the most advanced electric propulsion system in its class.

Inside, the open-plan saloon merges effortlessly with the aft cockpit, creating a seamless flow perfect for entertaining, dining, or simply unwinding. Expansive panoramic windows and skylights flood the interior with natural light, while customizable layouts let you shape the onboard experience to match your vision — whether it's full-time living, luxury charters, or long-range adventures.

The expansive flybridge is a true showstopper — imagine a spa pool, bar, oversized sunpads, and dining area all elevated above the water with 360° views of paradise. Forward, a generous bow lounge invites sunbathing, stargazing, or quiet moments with the sea. And the hydraulic swim platform aft is ideal for launching your tender, jet skis, or just enjoying the ocean, up close.

With zero emissions, ultra-low maintenance, and complete energy independence, the **Sunpower-ALVA 60** offers the ultimate freedom — explore remote islands, pristine coastlines, and hidden bays in absolute silence, without ever needing to refuel.

This is not just yachting. Sunpower living is where sustainability meets luxury and serenity.

***News flash! Another 60 is launching in Turkey this summer and is still available for purchase. It will then head to France for the Cannes Yacht Festival in mid-September. See you there?***

United Yacht Sales is proud to be representing Sunpower Yachts International. We firmly believe that solar electric is the wave of Yachting's Future. So, *Get on the wave now!*

*VIYB Ltd is pleased to assist you in the purchase of this vessel. This boat is centrally listed by United Yacht Sales. It is offered as a convenience by this broker/dealer to its clients and is not intended to convey direct representation of a particular vessel*
