Generator 2 KW hrs

## Summary / Description

McConaghy Multihulls is the latest product range from McConaghy, drawing on our 50 years of yacht-building excellence, as well as a storied history in creating some of the world's best-known and best-performing race boats.

McConaghy collaborates with world-leading designers and developed an entire multihull line of MC series being our first range in our series.

The MC86 GT features clean lines, apartment-style living, and an overall open and modern dynamic that simultaneously enables more comfortable cruising and better performance, a feat not yet achieved in any other line of multihull.

The MC86 GT has a narrower beam than most; it is a fast passage-making and built for offshore sprints yacht. She is notable for its sports coupe profile with a massive open saloon, free of bulkheads and partitions, which is almost twice the size of those found on 100ft power boats. The expansive flybridge is the ideal space for entertaining, socializing, and enjoying panoramic views with friends and family.

They are fully customizable indulgence interiors and features. These new series are still lightweight performance with more volume and still with high-end interiors.

### General Specifications

LOA 25.54mmax

Beam 9.30m

Draft 1.52m

Displacement light ship approx 50t

Standard Power 2 x Volvo IPS 1350
