Generator 2 KW hrs

## Summary / Description

StellarEXP models are long-range, strong, rugged, superyacht quality ultra-wide beam power catamaran yachts that are offered as either steel/aluminum or all-aluminum constructions with more powerful engines for those that require a 'fast explorer'.

Each size is also offered in M & S configurations. M with an extended upper deck for tender storage capacity and S with a shorter upper deck for main deck tender storage capacity.

Naval Architecture is from Ginton Naval Architects of the Netherlands and our customers work directly with our interior design team to ensure that they receive their perfect interior.

All StellarEXP models are built as Lloyds Hull Construction Certified +100A1 SSC, Yacht, Mono, G6 and can be constructed to full society or commercial classifications according to customer requirement.

StellarPM is a custom and semi-custom builder and is happy to discuss building exactly what the customer wants or make modifications as desired to any of the existing models so that the customer receives exactly the yacht they desire.

*VIYB Ltd is pleased to assist you in the purchase of this vessel. This boat is centrally listed by StellarPM. It is offered as a convenience by this broker/dealer to its clients and is not intended to convey direct representation of a particular vessel*
